Justin,

Thanks for getting back to me. I have heard that Linda Hayes-Gorman and David Anderson are available, but understand that you, Jennifer, and Leah aren't. I'm not certain whether to reschedule or to go ahead with the 18th and plan to loop you in shortly before or afterward. If you have time, would you reply or call with your thoughts? I'm at 503-326-6890. Thanks!

Tony –

I got your voicemail yesterday. Jennifer Wigal and I are both in Washington D.C. the 16-18th. Leah Feldon has been involved on this matter as well and Ex. 6 Personal Privacy (PP) Circling up with EPA and OHA seems prudent so hopefully we can find a time for all of us to get together. I have included Leah's assistant as well as mine on this email to help coordinate. Thank you.

Justin

Subject: Lower Umatilla Basin Nitrates Discussion

When: Wednesday, March 18, 2020 10:30 AM-12:00 PM (UTC-08:00) Pacific Time (US & Canada).

Where: 805 SW Broadway Ave, Suite 500, Portland

Hello Oregon Friends,

Some of you know already that EPA Region 10 is evaluating a recent petition from several organizations asking EPA to use authorities under the Safe Drinking Water Act Section 1431 to respond to nitrate exceeding drinking water standards in the Lower Umatilla Basin Groundwater Management Area in north central Oregon. The petitioners requested that EPA institute a moratorium on new CAFOs in the GWMA, and requested additional investigation, monitoring, enforcement, and provision of alternative drinking water. We are seeking to meet with you to have a management-level discussion on state and local strategies to regarding these issues. As we evaluate the situation, your incites and partnership will be particularly important. We are hoping you will be able to attend **a meeting at EPA's office in Portland on March 18th at 10:30 to noon**. Though I will include a call-in option, we highly value your in-person attendance, if possible. Please let me know if you have any questions or concerns.

Best regards,

Tony
